

# 同化型亜硝酸還元酵素(aNiR)の高次機能の理論的解明

○庄司光男<sup>1</sup>、實本英之<sup>2</sup>、鴨志田良和<sup>3</sup>

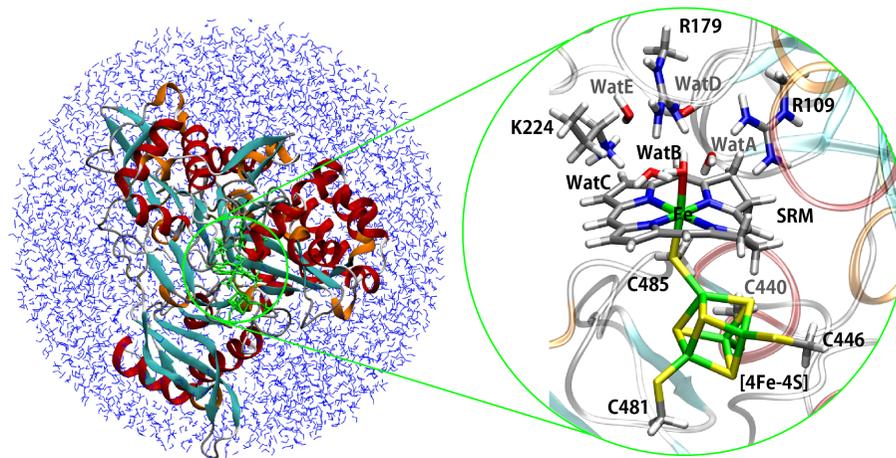

<sup>1</sup>筑波大・数理 <sup>2</sup>東大・情報基盤セ <sup>2</sup>DeNA

## aNiRの反応

S. Nakano, et al, *Proteins* 80, 2035 (2012).

- reaction mechanism  
double electron transfer ?
- proton transfer steps
- reaction energy profile

Method: QM/MM: UB3LYP/AMBER99  
 Basis: 6-31G\* basis sets (1000 basis sets)  
 Program: NWChem  
 Computer: FX10  
 #QM:120, #MM(els, vdw) :2,200  
 #Total : 26,000 (PDB-ID: 3VKR)  
 #Atoms in Opt. :500  
 Water droplet, short relaxation MD
